Re: Class 2 Permit Modification, Safety-Kleen (Wichita) Inc., EPA ID. Number KSD 007246846

Pursuant to Sections 270.42(b)(2) and (g)(1)(iv) of Title 40 of the Code of Federal Regulations, this letter will provide you with notice of the following modification to this facility's hazardous waste permit. This is a Class 2 modification adding four newly listed hazardous wastes to the permit and to the text of the permit application.

On August 6, 1998, the EPA listed as hazardous four wastes generated during petroleum refining, and assigned the following Waste Numbers to them: K169, K170, K171, K172. This rule was effective on February 8, 1999. On February 5, 1999, this facility requested a Class 1 modification to our Hazardous Waste Permit in accordance with the provisions of 40 CFR 270.42(g) *Newly regulated wastes and units*, to permit the facility to continue to manage these newly regulated wastes. In accordance with subparagraph (g)(iv), this facility has now requested a Class 2 modification of our permit to add these newly listed wastes to the permit. This facility has managed these newly listed wastes in the past, and anticipates the opportunity to manage them in the future.

The wastes to be added are:

K169 - Crude oil storage tank sediment from petroleum refining operations.

K170 - Clarified slurry oil storage tank sediment and/or in-line filter/separation solids from petroleum refining operations.

K171 - Spent hydrotreating catalyst from petroleum refining operations, including guard beds used to desulfurize feeds to other catalytic units.

K172 - Spent hydrotreating catalyst from petroleum refining operations, including guard beds used to desulfurize feeds to other catalytic units.

Copies of the modification request and supporting documents are available to be viewed and copied during business hours, at the KDHE South Central District Office in the State Office Building on Market Street in Wichita, Kansas.

Comments on this request may be made to KDHE at any time during the 60 days following the date of publication of this notice in the Wichita Eagle. Please address them to:

Mr. Mostafa Kamal, Chief, Permits Section
Bureau of Waste Management
Kansas Department of Health and Environment
Forbes Field, Building 740
Topeka, KS 66620-0001

A public meeting will be held on Thursday, September 23 at 4 PM, in the meeting room in KDHE's South Central District Office on the 6th floor of the State Office Building, 130 South Market Street in Wichita. Representatives of the facility and of KDHE will be available to answer your questions about this request, or you may contact me at the address or phone number below.

Sincerely,

Ronald K. Robertson, CHMM
Facility Environmental Manager
